

Streetwise Mini SMACK 20,000,000* Stun Gun – Black or Pink or Blue

Protection is now as close as your keys...

For a long time, the most popular non-lethal self-defense product has been the keychain pepper spray. What makes it so popular is that an individual is able to defend themselves when they are most vulnerable- walking to or from their home or car. With the pepper spray attached to a key ring, it is readily available and can be used at a moment's notice. About five years ago we asked the question, "if the keychain pepper spray is so popular, why not offer a powerful keychain stun gun in a similar size"? The result revolutionized the stun gun industry when we introduced the original Streetwise S.M.A.C.K. (Stun My Attacker Compact Keychain) Stun Gun. This amazing stun device was about half the size of stun guns on the market at that time and was light enough to be carried on a key chain. Well technology has improved a lot in the last 5 years, and now we are happy to introduce the Mini S.M.A.C.K. 20,000,000 which is about half the size of the original model. It is similar in size to a small pack of gum (measures a mere 3.25 in. x .75 in. x .50 in.) making it the smallest keychain stun gun in the world!

Features:

- **World's Smallest Keychain Stun Gun:** Although the Mini S.M.A.C.K. is less than half the size of a normal stun gun, it has more power than most models on the market today. Just test firing this unit into the air is often enough to stop an attacker.
- **Unique "Slide and Stun" Switch:** Standard stun guns use a button on the side to active the stun gun. This model features a unique slide switch.
- **Attaches to Your Keys:** When the need arises to protect yourself, you don't want to be fumbling around to find your stun gun. With it attached to your keys, you don't need to be concerned about it getting stuck at the bottom of your purse. You will have it in your hand when walking to your home or car and will be ready to protect yourself at a moment's notice.
- **Easy to Conceal:** Easily slips into your pocket or can be concealed in the palm of your hand.
- **Micro USB Charging Port:** Charging the unit is simple, using the included USB charging cord and your own wall block or car charger.
- **LED Flashlight:** Provides a convenient source of light whenever you need it.
- **Safety Switch:** To prevent accidental discharge, two levels of safety have been built in.

- **Lifetime Warranty:** The Mini SMACK 20,000,000 Stun Gun is made of the highest quality components and comes with a lifetime warranty.
